## *Terms*

Prices herein are for trees or plants delivered at your nearest freight, express or postoffice. Manner of shipment is governed by the size, weight and class of stock in your order. All orders must be accompanied with a deposit of 20% (one-fifth) of the amount of order, balance when you receive the stock (shipped c. o. d.) unless previously arranged otherwise. Orders desired shipped some particular manner or route, must so state on orders. Your assistance in this matter will enable us to serve you better.

If it is desired that we send another variety when out of the kind ordered, instruct us accordingly, as we do not substitute unless so ordered.

Digging and shipping season begins with us in October, and continues into April with but little interruption on account of climatic conditions.

## *Guarantee of Genuineness*

We exercise care to have our trees and plants true to name and will upon proper proof replace free any trees or plants that prove untrue to label. It is, however, understood and agreed between the purchaser and ourselves that we are not to be held liable for any sum greater than that paid us for such trees that may prove untrue.

Orders are accepted by us only upon the mutual agreement between the purchaser and ourselves that we shall not be held responsible for other damages.

Claims, arising from any cause, must be made promptly on receipt of shipment. We cannot entertain claims made after stock has been accepted. All claims must be filed within ten days after shipment has been received from carrier.

## *Notice*

All orders are accepted by us on condition that they shall be void should injury befall the stock from any cause over which we have no control.

Supply and demand ever will be the yardstick that measures values. The supply of today may change the value of yesterday in any commodity and also the demand of today may quickly change the price value of yesterday. We are always ready to meet the conditions of today. We reserve the right to change our prices without notice.

**EVERGREENS****CONIFERS**

All our Evergreen Trees and Shrubs are dug with a ball of earth, then securely wrapped with burlap and twine. Thus the roots are not disturbed or exposed. In handling Evergreens or any "balled and burlapped" plants be careful to not loosen the soil from the roots of the plant. In replanting cut the twine around the trunk or stem of the plant, roll back the burlap so as to allow new soil to cover the "ball", tamp fine new soil around the plant, leaving the burlap on the plant, soak down with water sufficient to settle the new soil and thus exclude any air pockets. Water liberally during the first summer after planting, and particularly during July and August.

We have larger sizes than listed herein, but have listed only the sizes in the different items that can best be packed and shipped. If you desire larger sizes, we will be pleased to quote you on your specific needs.

## ROSES

There are many grades of rose bushes, hence as many scales of prices which is necessarily confusing. Our prices are for our best grade of 2-year field-grown plants and are not comparable with much stock quoted at less than it costs to produce our plants. If you want vigorous, fresh healthy plants, we have them.
